

## PASA Advanced Certificate in Electronic Payments

Developed by the industry for the industry

The Advanced Certificate in Electronic Payments guides you on an online journey of discovery, learning and fun. There is no need to attend full day classroom sessions, battling traffic to get there on-time, or work at the pace of other students. Once you have access, you can learn at your own pace and at times convenient for you.

### What is covered in this Certificate?

*Low value, electronic, non-card payment systems*

- ✓ Clearing and Settlement process flows at a detailed level
- ✓ Defining criteria and major industry rules for each payment system
- ✓ Incident Management processes
- ✓ The role of non-bank stakeholders in each payment system
- ✓ Risk and benefits of different electronic payments
- ✓ Interchange for various electronic payment systems
- ✓ Current and future innovations and projects in the electronic payments space

### Who should attend?

- \* Pre-requisite: Successful completion of Certificate in Foundational Payments
- \* Member representatives attending PASA meetings
- \* Bank and non-bank employees working on projects in the electronic/digital payment space
- \* Fintech employees wanting to understand the electronic payments landscape better
- \* Employees of regulatory or industry bodies involved in electronic payment system support, projects or policies
- \* System Operator and Third Party Payment Provider employees who deal with electronic payment systems
- \* Employees of corporate companies who support electronic payment system functions (e.g. debit order business account executive or sales manager)
